

安永ならではの技術を進化させ新たな可能性を追求する

Yasunaga develops its original technologies to explore new possibilities

ミシンアームベッド製造で培った精密加工技術を基盤に、エンジン部品の生産と工作機械の開発・製造を主力とした自動車関連分野へ。環境機器、ワイヤソー、検査測定装置といったオリジナル製品も生み出し事業領域を拡大、新たな可能性へのあくなき挑戦を続け、未来を切り拓いていきます。

Based on our precision processing technology developed through manufacturing experience in sewing machine arm beds, we have broadened our reach into the automotive fields with a focus on engine parts and machine tools business. We have brought to market our original products including environmental equipment, wire saw, inspection and measuring devices. Yasunaga continues to make challenges toward new possibilities in order to create a new future.
