

### **Announcement to participate in CNIBF2017**

This is to inform that we will be exhibiting at CNIBF 2017 in Shanghai from 23 August to 25 to let you know our latest development, detail as follows.

#### 1. Exhibition schedule

Title : 9<sup>th</sup> China (Shanghai) International Lithium battery conference  
(CNIBF2017)  
Date : 23~25 August 2017  
Location : New Shanghai International Expo Booth No. E4426  
Official web : <http://www.cnibf.net/>

#### 2. Purpose to exhibit

In the globally largest market for new energy vehicle including EV, we would like to introduce our latest progress and development related to LIB manufacturing to the engineer and researcher in that field.

#### 3. Content of display

We will show the following panel for our technology

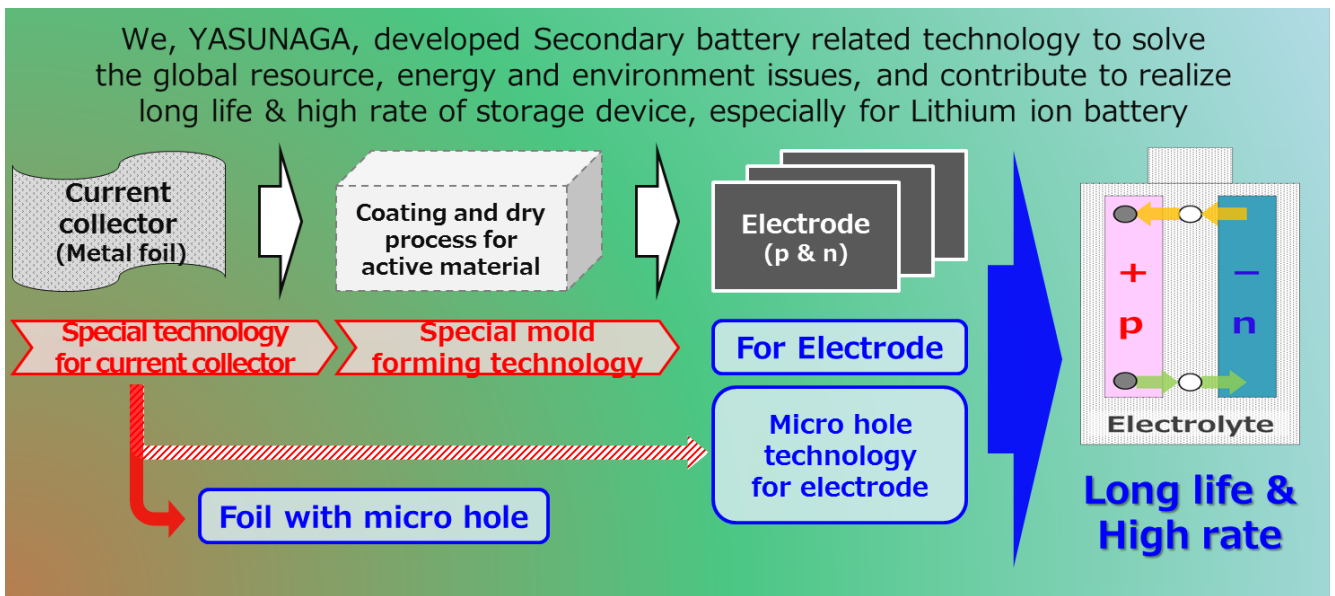

- (1) LIB electrode manufacturing technology (special process to current collector by special mold)
- (2) Foil with micro hole for storage device
- (3) Micro hole process to the electrode

#### 4. Contact

<for R&D progress, technology detail >

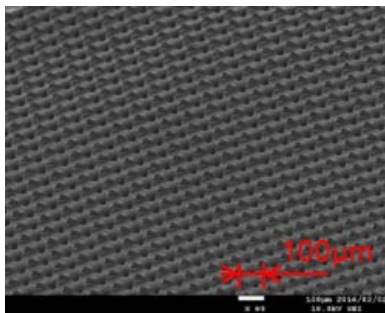

Yasunaga Corporation R&D Dept. YAMASAKI  
Tel : 81 3 3621 3301

【Our activity for secondary battery related technology】

【Sample to display】

(Foil with micro hole, 220holes/mm<sup>2</sup>)

(Micro hole process to the electrode)
